By Boosting our Discord Server, the GLaDOS Bot will collect your user id and will count the days that your Boosts have been applied for. After 90 days of Boosting, the GLaDOS Bot will proceed to ask you for the Minecraft® username to assign the Reward to, and will then collect the data you provide. This data consists of: Minecraft® username and UUID, Discord® username and id.

## **4. How we use your data**

After obtaining a Reward through Donation or Boosting, some of your data is publicly available through the use of our API, which is also used by the Software (section 4.2). By inputting a Minecraft® UUID, the API will respond with a list of Cosmetics, if any, linked to the Minecraft® UUID and, therefore, to the Minecraft® account it represents.

### **4.1. Discord roles**

After performing either the Donation or the Boosting processes, your data is used to assign a Discord® role to your Discord® user, which is used to grant access to exclusive Discord® channels.

#### **4.1.1. Supporter role**

After Donating, the GLaDOS Bot will notify you of the successful Donation via DM, and will use your Discord® username and id to assign the “Supporter” role to your Discord® user, inside our Discord Server.

#### **4.1.2. Booster role**

After Boosting, Discord® will automatically assign the “Booster” role to your Discord® user, inside our Discord Server.

## **4.2. In-game Cosmetics**

Your Minecraft® UUID will be used to show equipped Cosmetics linked to your Minecraft® UUID to other users participating in the same session within the Software.

## **5. How we protect your data**

The data you provide will never be shared with third-party entities, with the exception of what is stated in section 4. The stored data collected from you is always encrypted and will solely be used by us for the scopes defined in this Privacy Policy.
